

Galerie Francesca Pia

Min Yoon

Perspectives + ing

Opening Friday, August 30, 6–9 pm

August 31 – October 26, 2024

Entering the gallery as you leave it, leaving the gallery as you come back. For the exhibition *Perspectives + ing* I am making a landscape in which some creatures, hand-puppets, are having break-time on the landscape's back. These creatures are being protected by a ritual: *die Wärmepflastertherapie*. Getting together, putting heat patches on their back, then my shoulders, then your ears, and our eyes. Our placebo must continue. We are constantly digesting time. I am losing time, you are killing time and they are stealing our time. All artworks in this exhibition are literally connected by noodle yarn.

The question is: How to calculate the calories of this exhibition?!

The answer might be: Add a spoon of respect first.
